FRONT-END DEVELOPER

PERSONAL PROFILE

Software developer with strong development, analytical, troubleshooting and communication skills. Proficient at designing and writing code in various languages, feature development and implementation.

EDUCATION HISTORY

SAN JOSE STATE UNIVERSITY (SJSU) | San Jose, CA

MS in Software Engineering | [2014-2015]

AHMEDABAD INSTITUTE OF TECHNOLOGY | AHMEDABAD, GJ

BE in Computer Engineering | [2009-2013]

WORK EXPERIENCE

FRONT-END REACT DEVELOPER | APPLE INC (consultant via Infosys)

Remote, Ahmedabad, India | [SEP'22-DEC'24]

- Led the development and management of the UI(react) for Starling platform, collaborating with the Team Lead, Product Manager, backend team, and UX team to deliver high-quality features and revamp the application.
- Worked with the architecture and infrastructure teams to optimize seed-list and governance email features, reduce React build time, and ensure smooth production deployments.
- Partnered with the data and QA teams to establish data-binding contracts, resolve issues, and maintain application stability through continuous bug fixes and enhancements.

SR. SOFTWARE ENGINEER | AMNGO INC

Ahmedabad, Gujarat, India | [DEC'19-MAR'22]

- Worked closely with UX/UI designer to develop static websites using HTML5, CSS3, SASS, REACT, GATSBY, etc.
- Was Responsible for handling entire end-to-end Community Care Behavioural Health(CCBH) project build on React, Redux(saga) and Node-Express-Mongo backend.
- Worked as Senior Front End (React Consultant) @LeapToDigital (MD,USA) in building sales CRM using React, Node, Typescript, ParseDB, RxJS.

FRONT END APPLICATION DEVELOPER | INTERN | OCHAIN LLC

San Jose, California, USA | [SEP'18-FEB'19]

- Worked on transitioning Meteor-blaze application into React-redux application with using redux-saga as an async middleware.
- Designed and developed several reactjs and react-native components as Spinner, slider, data storage, block stat and chain stats.
- Worked on developing Merkel tree for transaction verification in react, along with implementing few components like mnemonic phrase verification to get hands on react-native.
- Wrote several queries using Dexie.js for performing crud operations to query IndexedDB for OChain wallet, transactions and stats.

UI DEVELOPER | PROTEK CONSULTING

San Jose, California, USA | [SEP'16-JUNE'18]

- Worked for GE Digital and Wells Fargo bank as UI developer as an consultant, delivering high-quality user interfaces in a Scrum-based environment
- My roles involved developing reusable components, implementing new features, and maintaining UI consistency using Polymer, YUI and React.
- Other duties included refactored and modernising codebases for better scalability, Identifying and fixed UI defects to ensure a smooth user experience, collaborating with designers and backend teams to ensure seamless integrations.

CAREER GAP

- Pursued MBA coursework (Feb'19–Dec'19) to strengthen business and strategic knowledge before refocusing on tech career.
- Took short medical leave in (Mar'22-Sep'22) for wrist surgery — fully recovered.
- Completed advanced training in Next.js, Front End System Design, React, and Data Structures and Algorithms (Jan'25-Present).

TECH STACK

REACT, JAVASCRIPT, TYPESCRIPT, NODEJS, EXPRESS, NEXTJS, TAILWIND, REDUX-SAGA, GATSBY, HTML5, CSS3, SCSS, GITHUB, MYSQL, MONGO, ES6, BOOTSTRAP, MATERIAL UI, KAFKA, SPLUNK ENTERPRISE(Min querying), AXIOS, REST API, NPM, WEBPACK, REDIS, JEST, DOCKER, KUBE.
